TO: Lauren N. Levine, Environmental Project Manager
Environmental, Health & Safety Group Administration
Pratt & Whitney

Brian A. Cutler, P.E., L.E.P.
Vice President
Loureiro Engineering Associates, Inc.

I have reviewed the latest response to my January 16, 2002 telephone call with Loureiro Engineering Associates (LEA) on the Revised December 2001 Remedial Action Work Plan for Pratt & Whitney Willow Brook and Willow Brook Pond, East Hartford, CT.

Based on my review, it appears that all my comments have now been addressed. George Andrews, from LEA, was told about this matter via voice mail message on February 11, 2002. He was also told that Juan A. Pérez from the RCRA Corrective Action may be following up with both Pratt & Whitney and LEA.

It is my understanding that the area of concern has been expanded due to higher volume of PCB contaminated material than anticipated or found during the characterization of Willow Brook and Willow Brook Pond.

Should you have any questions on this matter, please call me at (617) 918-1527.
